

The Pine Mountain Baptist Associational Missionary

—by John R. Isaac—

Friends, here I am after a two weeks vacation, visiting in my home state of North Carolina and in Tennessee.

We are back to put our hearts and hands to this great field of work. We are going this week, down to Spartanburg, South Carolina to a school of missions. We will be telling about the mountain mission work in order that others may more earnestly and intelligently pray and work with us.

My wife and I would like to express our appreciation for the nice gift to us at the Association. We could not have had a vacation without the (\$50.00) money which was given. We enjoyed it so much and thought of our friends while we did.

This great field of work here challenges me more and more. I desire, during this new year, to do more of the mission work and less of the supply work. I enjoy preaching to organized churches, but to me the "few" gathered in a mission Sunday School is a greater challenge and I want to spend most of my time with them this year. I consider the Mission Sunday Schools and the strengthening of the organizational work in the Association my main work.

I enjoyed teaching an Intermediate class at Hot Spot last Sunday. I had 15 intermediates. Hot Spot is near to my heart. I helped to start the Hot Spot Mission over a year ago and the people really helped.

Let us pray for the Lynch Baptist Church for the next two weeks. Brother Hilton is preaching for Brother A. R. Hoe in a revival meeting. The Lynch people are a fine cooperative group. Let us pray for a good meeting.

Now a thought for this week — which one of these two things do you have to do. Do you have to make a living, or — Do you have to make a LIFE?

Friends, I don't have to make a living, but I can't escape making a life. It is a responsibility to live, and to live we must. We must live until we die, then we must face God with that LIFE. Your Baptist Church in your community will help you LIVE a better LIFE.

Adams Genealogy

(Continued from last week) John died in the year 1815 and was, I am told, the first white man buried in what is now Letcher County; Letty, his widow, survived him for some thirty years. She made her home with her son Simpson, or rather Simpson made his home with her. The old home stood just under this hill on its brink, at the mouth of Pine Creek.

Along with the Spencer Adams colony was James Webb. He settled on the head of Cumberland, was a member of the Oven Fork Church, and I believe both he and his wife are buried near the old church. He had sons James, who settled down the Big Sandy, and Benjamin who married Jane (Jennie) Adams daughter of old John, and lived here in Letcher County. Public records reveal that he was very active in the affairs of Floyd, Perry and Letcher Counties. I have been working on James Webb's ancestry for sometime and believe that he belongs to the South Carolina family, so prominent there in the seventeenth century. This is because of the names used in both families: Benjamin, Miles, Mayo, etc.

All I have been able to learn about Archelus Craft is that he was a soldier in the Revolution; that he drew a pension for that service and that his son William Craft drew the last check after his death. In his application for a pension he stated that he was born in "Neues County" and was brought to Wilkes county, North Carolina, when a very small child. There is no "Neuse" county; so thinking that he meant Neuse River or Country, I began a research which revealed that there was a Craft family in one of the Eastern North Carolina Counties, in the early days, among them a Stephen and a Arch.

The late G. Bennett Adams once told me that he found an old tombstone in Wilkes county with the name "Chelus Craft" carved on it. This may have been Archelus' father. Archelus and Elizabeth (Adams) Craft had the following children, all living in the year 1835, Nancy, married William Caudill; Ezekiel, James, John, Stephen, Archelus, William, Charity, married Henry Pritchard and Sally married William Hammons.

Now a word about Moses Adams. His descendants say

that he was a son of William Adams, brother to Old John Spencer, etc., and that he died of measles at Valley Forge while serving in the Revolution under Gen. Washington. Moses married Mary Garland in Carter county, Tennessee, and came to Kentucky a few years after his uncles had settled here. He and Mary had four daughters and six sons: Nancy, married Gilbert Adams; Sally, married John Maggard, Polly married Samuel Cornett and Jennie married Isaac Brashears; Jesse married Polly Mullins; George married Henrietta Caudill and moved to Taney County Missouri; Stephen married Elizabeth Whitaker and resided in Letcher County; William Tolson married first Frankie Adams, second Sally Hall and lived in Letcher County; Isaac married first Patriah Webb and second Nancy Hays and lived on Cowan; and Moses Spencer, called Smoot Mose, married Rebecca Hall and lived on Smoot Creek and later on Pound, in Wise County, Virginia.

Moses married as his second wife Kizzie Hays, sister to his son Isaac's second wife, and they had the following children: Rachel, married John Sturgill; Henry married Polly Ann Webb; Frankie married Enoch Webb; Laurina married Tom Williams and Sam H. Blair; Elizabeth married Margaret married Stephen Blair.

SAFETY HINTS

—by Doc— Have you noticed the smoke, like a curtain draped down over the earth. We have not only seen that smoke, we have felt it in our physical being... our eyes burning from the smoke and also from strain while driving both night and early morn.

Drive slow, watch every little detail as you move along, drive such that you can stop quickly.

Moving in the dark is enough, without having our visibility reduced 20 to 30 percent.

Take heed to our slogan: "Let October see you sober, don't drink while driving."

Are You A Good American?

November 4th, next Tuesday, is election day. Every American owes it to his Country to go to the poles and vote. This is a PRIVILEGE and DUTY that every American owes to their country to vote for the best interest of their country. Our boys are fighting to protect America. It is our duty to vote to safe guard that for which they are fighting.

LET'S VOTE — VOTE — VOTE — VOTE — NOVEMBER 4th. —D. W. LITTLE Adv.

It says YES!

When you say GO!

You've got high-compression power to spare in a Ford—whether it's the 110-h.p. V-8 or the 101-h.p. Six!

A touch of the accelerator and zoom... you're away with zip to spare. For both the Ford Six and V-8 offer high-compression power. And both have Ford's exclusive Automatic Power Pilot which gives you more oomph per gallon... on regular gas.

Another Ford exclusive in its field is the choice of 3 great drives... Fordomatic, Overdrive, or Conventional. And Ford's the only low-priced car to bring you a curved one-piece windshield... Automatic Ride Control... Center-Fill Fueling... and Power-Pivot Pedals.
