

## WEST RIVERSIDE. BRANCH REJECTED

Proposals for the establishment of a sheriff's sub-station at West Riverside were rejected by unanimous vote of the board of supervisors this morning following receipt of a report from Sheriff Carl F. Rayburn.

The sheriff submitted an estimate of additional operating expense which would accrue should the sub-station be established. Not including the purchase of an additional radio-patrol car and office fixtures, he placed the annual cost at \$8411. This amount included salaries of three added deputies which would be required.

"Not Sound"

Rayburn acknowledged his desire for increased protection throughout the county, and admitted that sub-stations are not in themselves a detriment, but declared that at this time the proposal in his opinion is "not a good sound investment."

It was brought out by Supervisor Robert E. Dillon that the county will be called upon to aid in constructing a new jail for Blythe, since the old structure is subject to condemnation by state officials.

Appropriation of \$300 for continuing detail of special deputy sheriffs in Palm Springs region was ordered by unanimous vote, on request of Palm Springs Police Protection district commissioners.

## ST. LOUIS GETS RARE ART ROOM

ST. LOUIS (AP)—It cost the city \$28,000, but now the art museum has a complete room which originally was a part of the convent of Santa Isabel in Toledo, Spain.

The room alone without the furnishings is valued at that figure. It is more than 500 years old and represents the Hispano-Moresque art of the late 15th century.

It was transported piece by piece in large packing boxes from Venice, Italy, where it was bought from Adolf Loewi. Three months have been spent in reassembling it for the museum and it has just been opened to the public.

The rarity of this room increases daily as Spain is torn by war. Some of the best examples of this type art are being reduced by the fire of cannon and bombings. Nearly all that survive are in public buildings in Spain and cannot be removed from that country.

The ceiling of the room is of geometric arrangement, consisting of small pieces of wood and featuring a design of an eight-pointed star studded with silvery metallic decorations.

The Moorish fondness for running water is noted in a marble fountain placed in the center of the room. This fountain alone cost \$3600 and is probably of Mediterranean or Turkish origin.

Below the ceiling is a frieze of var-colored wood with knights and soldiers depicted in bright greens and orange on a background of reddish-brown.

There is a deep wall band of lace-like plaster work, an immense plaster archway weighing 4 tons. Huge double wooden ceremonial doors with a 10-point star design swing in the entrance. The room is 15 feet wide, 45 feet long and has a high ceiling.

To carry out the Spanish theme, the room has been hung with paintings of the period from the museum's collection.

The London, Midland and Scottish railway used 2260 special vans to carry 2,000,000 birds during the pigeon-racing season of 1936.

Water is carried into the Sahara desert by streams from the Atlas mountains and the highlands of Central Sahara.

The belief of the National Safety council is that accidents on highways would be reduced markedly if all motorists would dim their headlights.

## Legal Advertising Rate Boost Denied by Board

With Chairman W. C. Moore casting the deciding vote, the board of supervisors today denied a proposal that the rate for publishing the annual delinquent tax list be increased from 55 to 75 cents. Moore sided with Supervisors E. C. Talbot and Walter V. Pittman, while Supervisor Ralph W. Stanfield and Robert E. Dillon supported the increase.

Opposition to the plan was presented by a delegation from the tax committee of the citrus department of the county farm bureau. Riverside county weekly newspapers had presented the proposal last week.

## METEORITE HUNT OVER U. S. URGED

WASHINGTON (AP)—"Stones from Heaven" may be worth more than "Pennies from Heaven," the Smithsonian Institution said in requesting a nationwide search for meteorites.

E. P. Henderson, of the museum's geology department, estimated that thousands of meteorites—or fragments of shooting stars—are scattered throughout the United States. Each meteorite, he said, would "bring a very good return for a day's work," although it wouldn't make the finder rich.

The best way to recognize a meteorite, Henderson said, is by its extraordinary weight. Meteorites, often composed almost entirely of iron and nickel, are among the heaviest of rocks.

The star fragments do not always show signs of burning. The stones, although actually burned because of friction with air, probably are cool enough to handle when they strike the earth, Henderson said.

He explained that a meteorite is nearly always about 270 degrees below zero Centigrade when it enters the earth's atmosphere. As the meteor plunges through the atmosphere in a few seconds, the exterior becomes white-hot before the interior is heated above ordinary earth temperatures.

County Chamber Rejects Plan for Exhibit at Fair

Advisory board of the Riverside County Chamber of Commerce today voted to recommend that the board of supervisors do not enter Riverside county in a joint exhibit next year at the San Francisco Golden Gate exposition.

It was brought out that entrance in the fair on such a basis would require an expenditure of close to \$8000, an amount which the county cannot afford to allocate for advertising purposes.

Townsend Club No. 12 Indorses Candidates

Two candidates for political positions were indorsed by Townsend club No. 12 meeting Wednesday night at the West Riverside schoolhouse. Resolutions favored the nomination by the Townsend party of Col. Ralph Horton as United States senator from California.

Roy Webb of Arlington was indorsed as congressman from the Nineteenth congressional district, including Riverside, San Bernardino and Orange counties. Adv.

## ANNUAL CLEAN-UP TO OPEN TUESDAY

Riverside will begin its annual spring clean-up bright and early tomorrow morning, it was announced today in the office of Mayor William C. Evans. With trucks being sent out in all directions by Supt. of Streets William J. Brand, it is expected that the job will be done in ample time for Easter.

Residents are urged to cooperate by cleaning up their premises and placing the trash in neat containers on the parking. Containers will not be returned, Arthur E. Murr, assistant to Superintendent Brand, pointed out. Only one trip

will be made along any given street and no collections will be made from alleys.

Trucks of the park and light departments will augment those of the street department in undertaking the drive, which will be completed in three or four days. Advance telephone communications to the mayor's office indicate that a number of citizens already have prepared for the clean-up.

Rubbish will be hauled to the city dump in Tequesquite arroyo, south of Mt. Rubidoux, and those who miss the regular collection are urged to take it to the dump in their own conveyances.

## HONOR WILL GO TO LA FOLLETTE

MADISON, WIS. (AP)—The University of Wisconsin will honor three of its most prominent former students for distinguished service in government and science during its 85th commencement exercises next June 20.

Honorary degrees will be conferred upon Sen. Robert M. La Follette, Miss Katharine F. Lenroot, chief of the Federal children's bureau at Washington, and Prof. Harry Steenbock, eminent scientist who discovered the vitamin D irradiation process.

All three were born and reared in Wisconsin and attended the

university. All have degrees from the university except La Follette, who was forced to withdraw from school before graduation because of a serious illness. Steenbock was graduated from the university in 1905, Miss Lenroot in 1912.

Fifteen hundred bachelor and higher degrees will be conferred during the commencement exercises. Clarence Addison Dykstra, president of the university and former city manager of Cincinnati, O., and Gov. Philip F. La Follette are scheduled to give principal addresses.

La Follette, chairman of the senate civil liberties committee, succeeded his father, the elder Robert Marion La Follette, in the U. S. senate in 1925. Subsequently, he was elected for two full terms. He frequently has been mentioned as a possible third party candidate for President.

Miss Lenroot, a native of Superior, Wis., attended the university here and the New York School of Social Work. She was appointed woman deputy of the Wisconsin industrial commission in 1913.

## Burton Hall, Husband, Of Mildred Pierson Hall, Drowned, Board Verdict

The aviation board of the department of communications at Manila reported today after an extended investigation that all evidence indicated Burton Hall, Tucson, Ariz., aviator, husband of Mildred Pierson, formerly of Riverside, drowned when his plane crashed in Basaid bay Feb. 28.

The report said much wreckage of the plane had been picked up along the bay shore line, but Hall's body had not been found.

## Only 11 Homes Said Safe from Floods in Lytle Creek Canyon

Eighty-two of 120 homes on government land in Lytle creek canyon were either destroyed or damaged by last month's storm, Asst. Supervisor Frank A. Robinson of the U.S. forest service announced today.

Robinson said he found, during an inspection of the area, 54 homes destroyed, 17 so severely damaged that repair will be difficult, and 11 others badly damaged, but which could be restored.

Only 11 homes in the canyon are safe from future floods, he declared, 27 of those found undamaged being in the path of possible channel changes in the future, even with average rainfall.

**SAFEGWAY**

Prices Effective In All Safeways

In Safeway-operated departments of stores within 35 miles of Los Angeles.

Through Saturday April 16, 1938.

**LUCERNE ICE CREAM Pt. 10c**

# EASTER FOOD VALUES

YOU CAN ALWAYS SAVE at SAFEGWAY

The low prices quoted in Safeway's Easter Sale will help you to prepare one of the finest Easter Sunday dinners you have ever served, at record low cost to you.

From the foods listed here and featured at your neighborhood Safeway, you can select the delicacies you'll need to prepare a meal that will make history with its popularity. Make a list of your requirements now and have it filled at Safeway right away.

*Savings in Every Department*

[Sales tax will be added to the retail price on all taxable items.]

### SAFEGWAY'S BIG HAM SALE CONTINUES!!

Buy your Easter ham during Safeway's big ham sale. A huge purchase permits Safeway to sell Hams at the low prices quoted here—prices that will make ham unusually popular in Southern California this Easter.

**MORRELL PRIDE SKINNED Ham 25c**

Morrell's Hams have been famous for more than 100 years; they are guaranteed tender and fine-flavored. Ask the market man to cut several slices from the center of the ham for frying. Then Virginia bake the rest for Easter.

**MORRELL BONELESS HAM lb. 33c**

Morrell's ham, boned and packed in Cellulose casing. Whole ham or full half.

**WILSON TENDER-MADE HAM lb. 34c**

**EASTERN BACON lb. 25c**

Whole or part slab.

### OTHER MEAT VALUES
