BE IT ORDAINED BY THE Town Council of the Town of West Okoboji, Iowa:

SECTION 1. That Northern Natural Gas Company, a corporation, (operating as PEOPLES NATURAL GAS division) its lessees, successors and assigns, hereinafter referred to as grantee, be and are hereby granted a non-exclusive authority for a period of twenty-five (25) years, to erect and maintain a gas distribution system and any and all necessary mains, pipes, services and other appliances thereunto appertaining, in, upon, over, across and along the streets, alleys, bridges and public places in the Town of West Okoboji, Iowa, for the transmission, distribution and sale of natural and/or mixed gas for lighting, heating, industrial and all other uses and purposes in said Town of West Okoboji, Iowa.

SECTION 2. Whenever the grantee, in the construction or maintenance of its system or in the installation of any extension thereto, shall cut into or take up any pavement or shall make any excavation in any street, avenue, alley or public place, within the corporate limits of the Town of West Okoboji, Iowa, the same shall be done in a manner so as not to interfere with the use of such thoroughfares by the public. The grantee shall use such safeguards as may be necessary to prevent injury to persons or property during such construction work and upon its completion, all pavement shall be replaced in as good condition as it was before taken up.

SECTION 3. The grantee in erecting and maintaining said gas distribution system, and in entering and using said streets, highways, avenues, alleys and public places in said Town of West Okoboji, Iowa and in laying its gas equipment, shall not in any manner interfere with or injure any improvement which said Town of West Okoboji, Iowa now has or may hereafter have upon any of its streets, alleys, highways or public places.

SECTION 4. Grantee agrees for and in behalf of itself, its lessees, successors and assigns, that for and during the term and period of this grant, it will maintain in the Town of West Okoboji, Iowa, an adequate, modern, standard and sufficient gas system and equipment and to maintain and operate the same in a modern and adequate fashion and in a manner adequate to meet the necessities and requirements of said Town, its industries and inhabitants. Provided, however, that Grantee shall not be required to extend its gas distribution system more than 200 feet for each customer to be served from any extension thereof, and provided further, that no obligation shall extend to, or be binding upon the Grantee, to construct or extend its mains or furnish natural gas or gas service within said Town if Grantee is, for any reason, unable to obtain delivery of natural gas at or near the corporate limits of said Town or an adequate supply thereof to warrant the construction or extension of its mains, for the furnishing of such natural gas or gas service, and provided further, that when the amount of natural gas supplied to Grantee at or near the corporate limits of said Town is insufficient to meet the additional firm requirements of connected or new consumers, Grantee shall have the right to prescribe reasonable rules and regulations for allocating the available supply of natural gas for such additional firm requirements to domestic, commercial and industrial consumers in that order of priority.

SECTION 5. Grantee agrees for and in behalf of itself, its lessees, successors and assigns that all authority and rights in this ordinance contained shall at all times be subject to all rights, power and authority now or hereinafter possessed by the Town of West Okoboji, Iowa, to regulate, by ordinance the rates at which gas shall be sold and delivered within said Town of West Okoboji and the manner in which grantee shall use the streets, alleys, bridges and public places of said Town and concerning the manner in which grantee shall use and enjoy the franchise herein granted.

Should the British Thermal Units fall below nine hundred (900), the rate then in effect shall be automatically and correspondingly lowered and reduced during any period or periods of time in which such lower British Thermal Unit value shall be furnished. The Town shall have the privilege of requesting grantee to furnish satisfactory proof of British Thermal Unit content of the gas.

A copy of the process served upon the grantor shall be served by the grantor upon the grantee. The grantee shall have the right to defend in the name of the grantor and to employ counsel for such purpose.

SECTION 8. If the grantee shall be in default in the performance of any of the terms and conditions of this Ordinance and shall continue in default for more than thirty (30) days after receiving notice from the Town of West Okoboji, Iowa of such default, the Town of West Okoboji, Iowa may, by ordinance duly passed and adopted, terminate all rights granted under this Ordinance to the grantee. The said notice of default shall specify the provision or provisions in the performance of which it is claimed the grantee is in default. SECTION 9. The right and authority herein granted shall be non-exclusive and shall be and continue for a period of twenty-five (25) years from and after the effective date of this Ordinance.
